

## Water Feature Specialist

Land Expressions, LLC  
Spokane Washington

### Job Description:

- Do you want to build complex water features, fountains, splash pads and pools in the Pacific Northwest?
- Do you enjoy the challenges of managing large scale construction projects?
- If you are a self-motivated individual with pride and passion in your work, please read on.

The Water Feature Specialist is a good communicator, leader and individual familiar with general construction methodologies and requires an emphasis in plumbing knowledge and capabilities. This position works closely with Design staff, Owners, Architects and General Contractors to develop high end water features of all types and sizes. The position requires a person capable of working autonomously, supervising a crew, managing and coordinating with other sub-contracting trades that is driven to meet deadlines, budgets and maintain the highest quality standards.

### About the Company:

Land Expressions is a drug free, full service Landscape Architecture and Construction company that embraces difficult and unique projects that demand creativity and sound construction solutions around the Western United States (mainly Washington, Oregon, Idaho, Utah and Montana). The company manages all of the projects out of our main office in Spokane, WA. Visit [landexpressions.com](http://landexpressions.com) to learn more about the company and our projects.

### About the Position:

Depending on experience, the Water Feature Specialist will apprentice with the current team for a minimum of one season and ultimately oversee the construction of our water features. Responsibilities include:

- Receive direction and communicate routinely with the Project Manager
- Communicate regularly with vendors, owners, designers, general contractors, sub-contractors etc.
- Plan and Specification reading and implementation
- Material takeoffs and ordering
- Manage all phases of site construction
- Equipment operation
- Maintain and ensure a safe job site at all times
- Mentor, train and educate other staff
- Keep accurate records of all personnel, equipment, materials, activities and report them using a company provided lap top

To be successful, an individual must be able to perform each essential task satisfactorily.

**Education and/or Experience Required** (please do not apply if you cannot meet these 3 requirements):

- 5 or more years' experience in high end landscape/pool construction or similar managing construction projects
- 2 year Associates Degree
- Flexible schedule, as travel is required for extended periods of time

**Other Requirements:**

- Familiarity and experience with water works / general plumbing
- Positive demeanor and strong analytic aptitude and leadership skills
- Work independently
- Ability to proficiently work with a company provided lap top utilizing Microsoft office applications and other appropriate software as employed by the company
- Highly organized, detail oriented and self-disciplined
- Ability to manage multiple projects or tasks to completion according to budget and schedule
- Heavy equipment operation
- Valid Driver's license
- Physically capable of performing construction tasks – this is a working position

Land Expressions provides a competitive compensation package (DOE) including vacation, medical and dental. If you meet the requirements and want to have a challenging, interesting and rewarding opportunity, please submit your resume and cover letter to [info@landexpressions.com](mailto:info@landexpressions.com).
