

Landscape Designer/CAD Technician

Land Expressions, LLC
Spokane Washington

The qualified candidate for our landscape designer/CAD Technician position is an upbeat, positive, team oriented individual, proficient in AutoCAD, Adobe suite and the Microsoft Office suite. We are looking for creative, energetic individuals that want to affect our natural and built environments in the residential, commercial and public realms.

About the Company:

Land Expressions has been in business for 34 years and is a drug free, full-service Landscape Architecture and Construction company that embraces difficult and unique projects that demand creativity and sound construction solutions around the Western United States (mainly Washington, Oregon, Idaho, Utah and Montana). The company manages all of the projects out of our main office in Spokane, WA. Visit www.landexpressions.com to learn more about the company and our projects.

Education / Experience:

- 2 to 5 years industry experience in landscape design, construction, engineering or related fields preferred
- Completely proficient in AutoCAD
- CAD drafting vocational degree, 2-year horticulture degree or Bachelor of Landscape Architecture preferred
- Familiarity and experience with LandFX preferred
- Knowledge of Pacific Northwest plant species and uses preferred

Necessary Skills:

- Capable of providing support to project managers through the design, bidding and construction phases of the design process.
- Drafting and plant procurement
- Positive demeanor, leadership and communication skills
- Works well independently or in team setting
- Highly organized, detail oriented and self-disciplined

Land Expressions provides a competitive compensation package (DOE) including vacation, medical and dental. If you meet the requirements and want to have a challenging, interesting and rewarding opportunity, please submit your resume and cover letter to info@landexpressions.com
